Colourful and connected LED printing

Quiet without compromising on speed or quality

Boosting your productivity

Brother's new range of colour LED printers are expertly engineered to help boost productivity in your home or small office. These devices are designed to be quiet whilst still offering excellent quality and fast print speeds Combined with the user-friendly interface, you'll be ready to begin printing straight out of the box.

*Multifunction devices only

The perfect partner for your small office

The office and home environment is continuously changing with the goal of increasing efficiency and productivity. Being confident that you have a reliable device that prints quickly and effortlessly is key.

Business isn't always black and white, these devices utilise LED technology to produce professional quality colour prints to add impact to those important documents

Stay connected

Make your day easier and your printing effortless, with a wide range of connectivity options including gigabit ethernet, 5GHz WiFi and USB connection. Download the Brother Mobile Connect app, enabling you to print and scan* documents on the move.

Multifunction devices only

Multitask with ease

With the 2-sided print feature, large paper capacity and Automatic Document Feeder (ADF) you can multitask with ease and work for longer without having to replenish the paper tray. These specifications will help to boost productivity and keep your office running smoothly.

Print more

Keep your printing costs down with the generous inbox toner yields and separate drum to meet your higher volume print needs. Toners are easy to change and a high yield replacement toner printing up to 3,000 pages is available, reducing your frequency to replace.

Secure by design

To keep pace with the ever-evolving legislation on privacy and data security, our devices offer the latest industry-standard security features to securely protect your data. Our security experts continuously research new enhancements to products, solutions and services to proactively ensure all our products are 'secure by design'. Brother uses triple-layer security at a device, network and document level. This offers added peace of mind and guarantees that the integrity of your data is maintained at every step.

Dedicated to remanufacturing and reducing CO2

Our processes mean that 100% of the Brother cartridges you send back to us are remanufactured or recycled. Absolutely nothing goes to landfill and hasn't since 2013.

We are regularly investing in more sustainable products by working towards the circular economy principles of reduce, reuse, refurbish, repair and recycle with zero waste to landfill.

Dedicated carbon neutral remanufacturing facilities support our free cartridge return and recycle scheme. Every year, we remanufacture or recycle 3 million toner cartridges.

By remanufacturing 86% of our toner cartridges and each cartridge saving on average 33 % of CO_2, we save around 4,500 tonnes of CO_2 each year. In doing this, we are able to support your company in reducing its carbon footprint and can provide you with an annual certifcate showing the amount of CO_2 you have saved when returning cartridges via the bulk returns scheme.

Zero waste to landfill

Our European recycling facilities have been zero waste to landfill accredited since 2013 - stopping 1,500 tonnes of material from ending up in landfill every year.

Our commitment to local communities

Our Vietnam manufacturing facilities received Responsible Business Alliance (RBA) Gold certification, for our commitment to fulfilling our social responsibilities through the establishment of sustainable supply chains.

RBA's code of conduct sets out standards to ensure that working conditions are safe, that workers are treated with respect and dignity, and that business operations are conducted environmentally responsibly and ethically.

COOL EARTH

As well as our market-leading, carbon-neutral toner remanufacturing program, we have been partners with global charity, Cool Earth for well over a decade. A UK-based non-profit organization, Cool Earth helps protect endangered rainforest, combats against climate change and provides employment for local people.

Together, we have supported 7 communities across Papua New Guinea and the Peruvian Amazon in protecting around 70,000 hectares of rainforest from deforestation. As custodians of this land, these local communities have kept almost 27 million trees standing which absorb and store over 38 million tonnes of CO2 from the earth's atmosphere.

Print more, save more with our high yield toners and value packs

The benefits of high yield

High yield toner cartridge savings

The TN248XL cartridges contain more toner for a higher page yield and lower cost per page. For those with high volume print needs, they also save you time by reducing the frequency of cartridge changes.

Value pack savings

Save money on your ink with a multipack. The TN248VAL value pack is more economical and convenient than single pack purchases, reducing the cost per page.

Brother Mobile Connect

Print from anywhere by downloading the Brother Mobile Connect App.

With Brother Mobile Connect, you can fully operate your Brother printer from your fingertips. Print and scan* documents on the move and order genuine Brother supplies straight to your door. You can also personalise your frequently used features and unlock a revolutionary way of printing from your mobile device.
